# CONTENTS

**Vol. 103, No. 1, January, 1971**

**The Role of Transfer Agent in Immunity**
*K. Watanabe and S. Mitsuhashi* 1

**Antibody Production without Reactive Proliferation of Pyroninophilic Cells in Rainbow Trout and African Clawed Toad**
*S. Mitsuhashi, S. Kurashige, S. Mishima, N. Yamagushi and K. Fukai* 7

**Gastric Acid Output Study in East African and Japanese Subjects**
*B. Dutt, K. Nakamura and G. Ueda* 11

**Ultrastructural Classification of Endocrine-like Cells in the Mucosa of Human Stomach** *A. Nabeyama, F. Murata, H. Matsuda and T. Ogata* 17

**Free Amino Acid Pattern in the Brain from Rats with Hyperaminoacidemia** *K. Tada, G. Takada and Ts. Arakawa* 49

**Inactivation of Gastrin-like Synthetic Peptide by the Liver and Serum, and Its Clinical Significance**
*A. Ishimori, K. Nemoto, M. Shimoyama and S. Yamagata* 61

**Acute Adaptational Disturbances due to the Imbalance of the Autonomic Nervous System** *A. Saito* 71

**Chronic Adaptational Disturbances due to the Imbalance of the Autonomic Nervous System** *A. Saito* 93

**Relaxing Response to Transmural Stimulation of Isolated Taenia Coli of the Chimpanzee and Pig** *A. Rikimaru* 115

**Stochastic Dependency of Neural Impulse Sequences**
*H. Nakahama, N. Ishii, M. Yamamoto and H. Saito* 117

**Vol. 103, No. 2, February, 1971**

**Sugar-dependent Increment of the Transmural Potential of Isolated Small Intestine in $Li^+$- medium** *H. Hayashi, Y. Saito and T. Hoshi* 119

**Biochemical Changes of the Lipid in Biopsied Livers of Patients with Malignant Neoplastic Diseases** *I. Nakazawa and S. Yamagata* 129

**Mechanism of the Antipeptic Action of Anionic Carbohydrate and Its Clinical Application for the Treatment of Peptic Ulcer** *A. Ishimori* 141

**The Effects of Blood Pressure and Arterial Oxygen Saturation on the Myocardial Reactive Hyperemia**
*Y. Yazaki, K. Kuramoto, K. Murata and M. Ikeda* 159

**Epidemiological Study on Beta-hemolytic Streptococcal Infections in Yamagata Prefecture** *S. Sakano* 167

**Measurement of Plasma Angiotensin II by Radioimmunoassay** *S. Fukuchi and I. Katsushima* 185

**Passive Transfer of Tumor-specific Resistance to Methylcholanthrene-induced Sarcomas in Rats** *Y. Ishikawa, M. Fukushima, T. Sato, M. Komaba, H. Yagihashi, A. Hokama and M. Kojika* 195

**Electroencephalographic Observation of Apparently Normal Aged Subjects** *N. Yoshii* 203

**Plaque Formation by Influenza Viruses in a Clonal Line of Porcine Kidney Cells** *S. Matsuda and H. Yaoi* 217

**Vol. 103, No. 3, March, 1971**

**Regional Difference of Respiratory Change in Pulmonary Arterial Wedge Pressure** *R. Katori, T. Haneda, K. Miyazawa, K. Ishikawa, K. Tsuiki, A. Yazaki and S. Ikeda* 221

**Sucking Ability of Newborns** *S. Nagai and C. Yamada* 231

**Biosynthesis of Glycoproteins in the Stroma of Rat Adipose Tissue** *T. Sato, M. Okuyama and T. Torikai* 247

**Evidence for the Presence of Inhibitor and Some Trials for Its Prevention in Radioimmunoassay of Plasma Glucagon by Two-antibody System** *A. Ohneda and S. Yamagata* 257

**Reticular Stimulation and the Light-adapted Discharges of the Visually Evoked Cortical Response in Cat** *T.A. Suzuki and J.H. Jacobson* 269

**Relationship between Acute and Chronic Diseases Observed from the View-point of the Autonomic Nervous System** *A. Saito* 285

**Neural Mechanism of the Relaxing Responses of Guinea-pig Taenia Coli** *A. Rikimaru and T. Suzuki* 303

**Vol. 103, No. 4, April, 1971**

**Contractile Properties of Organ-cultured Intestinal Smooth Muscle** *A. Rikimaru* 317

**Acute and Chronic Toxicity of Furylfuramide in Rats and Mice** *T. Miyaji* 331

**The Effect of Simultaneous and Alternate Feeding of Furylfuramide and 4-Dimethylaminoazobenzene on Rats** *T. Miyaji* 371

**Effect of Furylfuramide on Reproduction and Malformation** *T. Miyaji* 381
**Cerebral Mechanism in the Deve opment of Skill in Manual Work**
*Y. Hori, T. Yanase, Y. Hattori, C. Terada and S. Utsumi* 389
**The Metabolism of Phosphatidyl-ethanolamine in Liver and Other Tissues of Intact Mice** *H. Okabe and T. Shimojo* 407
